

Parrot Craft

Materials:

- Printer and Paper
- Toilet Paper Rolls (TP)
- Scissors
- Glue

Instructions:

- Print the number of templates as there are crafts to be constructed.
- Cut out all parrot pieces (for young children pieces could be precut to speed up the craft).
- Glue rectangular shape around TP roll.
- Glue tail to the back (opposite the PPE logo) I glued it to the inside back and then folded it upward. I think it looks nice that way, but be creative.
- Glue the two head pieces together at the beak and forehead then to the top of the TP roll.
- Glue the wings onto the side of the TP roll (as in photo) or make it look like the parrot is flying by gluing the wings onto the back of the roll.
- Fold the tabs on the feet and glue to inside of the TP roll.
